# 3. Installation

The following illustration shows how to install the phone and stand.

Wall Mounting View
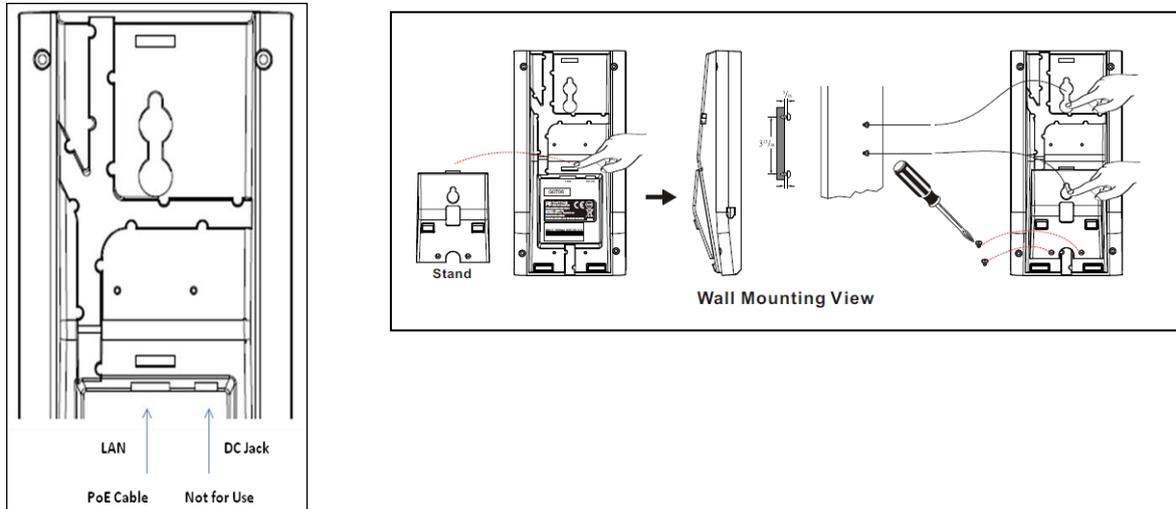

# 4   Operation

## Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator at the top of both handset and base units. You can answer the call by doing one of the followings:

- Pick up the **handset** to answer the call.

## Making a Call

**Dialing with the Keypad**

- Enter the telephone number with the alphanumerical keypad.
- After entering the number you want to call, press the # key to force dialing or wait for 3 seconds before the number is dialed automatically.

## Call Options

While a call is in progress, a number of additional options are available.

## Putting a Call on Hold

You may want to put a call on hold temporarily while doing some work or attending to a second incoming or outgoing call. To put a call on hold, do one of the following:

- Press the **HOLD** key on the phone to put the call on hold.
- When you receive a second call, press the next available LINE key to attend to the new call, and the first call will be put on hold automatically.

# 5 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DCHP network.

- Pick up the handset and then press *112*113#, the IP address is announced by the phone.

- Open your browser (such as Chrome, Firefox, etc.) and type in the web address of the phone. For example, http://
IP.address.of.thePhone:8000

  When the Web login front page is displayed. Enter the user name and the password and click **Login**.
  The administrator's user name and password are "**admin**" and "**1234**" respectively.
