2 Product Description

This chapter contains important information to help you familiarize yourself with the functions of the Analog phone.

Front View

	Name	Description
1	Ring Indicator	A red light indicator means that you have incoming calls or signals that a message is waiting for retrieval.
2	Dialing Pad	Press the buttons to dial a phone number or enter alphabetical characters.
3	Speed dial keys	Press to dial one touch of guest services or PBX features. Programmed during installation.
4	Flash key	Press to provide momentary line break typically used for accessing PBX features such as transfer calls.
5	Redial key	Press to automatically redial the last number dialed

3. Installation

The following illustration shows how to install the phone and stand.

4 Operation

Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator at the top of handset. You can answer the call by doing one of the followings:

• Pick up the **handset** to answer the call.

Making a Call

Dialing with the Keypad

• Enter the telephone number with the alphanumerical keypad.
