3. Installation

The following illustration shows how to install the phone on the wall.

Base Unit
4   Operation

Pairing with master unit

Please follow the step below to pair the SAX phone set with the master unit.

- Please enter "* 112 *811" on master unit to standby.
- Press the star key to enter the SAX menu; close the item 2 to start the pairing.
- Press the line key to submit the pair.

Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator at the top of both handset and base units. You can answer the call by doing one of the followings:

- Pick up the **handset** to answer the call.

Making a Call

Dialing with the Keypad

- Enter the telephone number with the alphanumerical keypad.
- After entering the number you want to call, press the # key to force dialing or wait for 3 seconds before the number is dialed automatically.

Call Options

While a call is in progress, a number of additional options are available.

Putting a Call on Hold

You may want to put a call on hold temporarily while doing some work or attending to a second incoming or outgoing call. To put a call on hold, do one of the following:

- Press the **HOLD** key on the phone to put the call on hold.
- When you receive a second call, press the next available LINE key to attend to the new call, and the first call will be put on hold automatically.

Checking Voice Messages

If the **message waiting indicator** at top of handset or base unit lights up in red, it indicates that there are one or more new messages in voicemail box.

- Press the **MESSAGE** key on the phone to retrieve voice messages.

(An external ITSP or PBX must support voice message feature. And you need to set a voice message code before using the voice mail feature.)

5 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DCHP network.
- Pick up the handset and then press *112*113#, the IP address is announced by the phone.
- Open your browser (such as Chrome, Firefox, etc.) and type in the web address of the phone. For example, http:// IP.address.of.thePhone:8000

    When the Web login front page is displayed. Enter the user name and the password and click **Login**.
    The administrator's user name and password are "**admin**" and "**1234**" respectively.
