QIG

V 1.03

1   Over view

This phone is a full-feature telephone that provides voice communication. Read this QIG carefully to learn how to operate this product and take advantage of its features.

Package Contents

When unpacking the VoIP phone, ensure all the following items are present and undamaged. If anything appears to be missing or broken, contact your dealer for a replacement.

1. **Base Unit**
2. **Handset**
3. **Wall mount**
4. **AC/DC Adaptor (optional)**
5. **RJ-45 Cable**
6. **Quick Installation Guide (this document)**

2   Product Description

This chapter contains important information to help you familiarize yourself with the functions of the VoIP phone.

Front View

	Name	Description
1	Ring Indicator	A red-light incoming call indicator.
2	Dialing Pad	Press the buttons to dial a phone number or enter alphabetical characters.
3	Speed dial Service Keys	Press any of the keys to speed dial the preset service number.
4	Hold	Press to put an active call on hold.
5	Redial	Press to call the last number dialed.
6	LINE 1 / LINE 2	Two LINE buttons.
7	Volume control keys	Increases or decrease the volume for the currently active voice receiver for handset. The volume button also controls the ringer volume when on-hook.
8	MUTE (9110-S/9210-S)	Press to mute a call.
9	SPEAKER (9110-S/9210-S)	Press to activate the speakerphone for hands free conversations.

3. Installation

The following illustration shows how to install the phone and stand.
4 Operation

Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator at the top of both handset and base units. You can answer the call by doing one of the followings:

- Pick up the **handset** to answer the call.

Making a Call

Dialing with the Keypad

- Enter the telephone number with the alphanumerical keypad.
- After entering the number, press the # key to force dialing or wait for 3 seconds before the number is dialed automatically.
-

Call Options

While a call is in progress, a number of additional options are available.

Putting a Call on Hold

You may want to put a call on hold temporarily while doing some work or attending to a second incoming or outgoing call. To put a call on hold, do one of the following:

- Press the **HOLD** key on the phone to put the call on hold.
- When you receive a second call, press the next available LINE key to attend to the new call, and the first call will be put on hold automatically.

Using the Speaker Phone (9110-S / 9210-S)

For hands free operation, you can use the built-in speaker to talk on the phone. To use the speakerphone, follow the steps below:

- While talking on the phone, press the **SPEAKER** key on the phone to enable the speakerphone function.
- Press **SPEAKER** key again to terminate the call.

5 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DCHP network.

- Pick up the handset and then press *112*113#, the IP address is announced by the phone.

- Open your browser (such as Chrome, Firefox, etc.) and type in the web address of the phone. For example, http://IP.address.of.thePhone:8000

  When the Web login front page is displayed. Enter the user name and the password and click **Login**.
  The administrator's user name and password are "**admin**" and "**1234**" respectively.
