Connecting the Phone

The following illustration shows how to install the handset and battery.

3 Operations

Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator at the top of handset. You can answer the call by doing one of the followings:

- Pick up the **handset** to answer the call.
- Press the **LINE (LINE1/LINE2)/SPEAKER** key on the handset to answer the call.

Making a Call

Press **LINE** key or **SPEAKER** key will see all dialing description for this phone set.

You can make the call by doing one of the followings:

Dialing with the Keypad

1. Enter the telephone number with the alphanumerical keypad.
2. After entering the number you want to call, press the # key to force dialing or wait for 3 seconds before the number is dialed automatically.

Using the service function

You can use the pre-assigned service function, to configure the most commonly dialed numbers. Use the function to dial a number quickly, instead of keying in a complete number.

To call a number using speed service dialing, follow the steps below:

- Press **SELECT SERVICES** key and use right/left key to select service.
- Press **SELECT SERVICES** key again to precede service dial.

Pairing handset and base unit

To pairing handset and base:

- Put handset on the base, the base will start pairing automatically.
- After finished pairing, the base will play the beep tones.

Charging the Handset Battery

You would need to charge the handset battery before using the handset.

- Install the battery into the handset.
- Place the handset onto the base unit and base unit will start to charge the handset automatically.
- This icon  will show on your display during charging progress.

4 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DCHP network.
- Press *112*113 and then “Line 1” (for 2-line phone) or green button (for 1- line phone), the IP address is displayed on the LCD screen.
- Open your browser (such as Chrome, Firefox, etc.) and type in the web address of the phone. For example, http://IP.address.of.thePhone:8000

When the Web login front page is displayed. Enter the user name and the password and click **Login**.
The administrator’s user name and password are “**admin**” and “**1234**” respectively.
