## **Connecting the Phone**

The following illustration shows how to connect the power, LAN and PC ports of VoIP phone.

The following illustration shows how to install the phone and stand.

# 3 Operations

#### **Answering a Call**

An incoming call is indicated by a ringing tone and a flashing indicator at the top of both handset and base units. You can answer the call by doing one of the followings:

- Pick up the **handset** to answer the call.
- Press the Line (Line1/Line2) key on the base or handset to answer the call.

## Making a Call

Dialing with the Keypad

• Enter the telephone number with the alphanumerical keypad and the call will start automatically.

## Using the Speed dial keys

You can use the 6 pre-assigned speed dial hotkeys, to configure the most commonly dialed numbers. Use the function to dial a number quickly, instead of keying in a complete number.

To call a number using speed dialing, follow the steps below:

• Press the speed dial hotkey that has been pre-assigned to the phone number and the call will start automatically.

#### **Call Options**

While a call is in progress, a number of additional options are available.

## **Using the Speaker Phone**

For hands free operation, you can use the built-in speaker to talk on the phone. To use the speakerphone, follow the steps below:

- While talking on the phone, press the SPEAKER key on the phone to enable the Speakerphone function.
- Press Speaker key again to terminate the call.

#### Putting a Call on Hold

You may want to put a call on hold temporarily while doing some work or attending to a second incoming or outgoing call. To put a call on hold, do one of the following:

- Press the HOLD key on the phone to put the call on hold.
- When you receive a second call, press the next available LINE key to attend to the new call, and the first call will be
  put on hold automatically.

#### **Checking Voice Messages**

If the **message waiting indicator** at top of handset or base unit lights up in red, it indicates that there are one or more new messages in voicemail box.

• Press the MESSAGE key on the phone to retrieve voice messages.

(An external ITSP or PBX must support voice message feature. And you need to set a voice message code before using the voice mail feature.)

# 4 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DCHP network.
- Press HOLD/MUTE \*112\*113# (HOLD for 2-Line / MUTE for 1-Line) on the base, the IP address is announced by the phone. Or Press \*112\*113 and then "LINE 1" (for 2-line phone) or green button (for 1- line phone) on the cordless handset, the IP address is displayed on the LCD screen
- Open your browser (such as Chrome, Firefox, etc.) and type in the web address of the phone. For example, http:// IP.address.of.thePhone:8000

When the Web login front page is displayed. Enter the user name and the password and click **Login**. The administrator's user name and password are "admin" and "1234" respectively.
